Bibliography: In this book I have tried my best to present the important findings of the saints of Islam. The book has been arranged in a systematic manner. Over the past forty years the separatist Hindu groups have been expressing their feeling of frustration over the growing Muslim population in India.In their view, Muslims are not getting jobs and living under one roof with the Hindus. The Hindu groups are not happy with the Muslims because they are not supporting them in communal riots and not putting up with them for the sake of peace. They believe that Muslims are a threat to them. They feel that Muslims should be separated from the Hindu minority and the resultant Muslim colonies will not affect the Hindu majority as they will be living in their own separate colonies. In their opinion, this is what India should look like. Muslims have been living with the Hindus for a long period of time. When the Muslim population became larger than the Hindus, the latter adopted the government's policy of separating the two communities. In the Punjab, the Muslims were brought under the government's welfare scheme and in other parts of India Muslims were given separate colonies. Muslims since then have felt that their needs are being ignored by the government and this affects the Muslims because they feel that they do not get the same opportunities as other citizens of India. The separatist Hindus have been taking advantage of the fact that they are Hindus and Muslims are living in the same community. The separatist Hindus have been complaining about the alleged discrimination that they are facing in the state. On the other hand, the Muslims have been regularly complaining about the alleged discrimination that the Hindus are facing.The initial thought of the Government of India was that it would not be fair to have a separate Muslim colony for the Muslims and even they were to settle in a separate colony, there should also be separate colonies for the Hindus who are already living in these colonies. Moreover the Government refused to accept the idea of having all Muslims living in a separate colony. But the Hindu leaders were so upset at the idea of having all Muslims living under one roof that they threatened to call for a violent protest. The Muslim leadership also came forward and said that they will accept an area where the Muslims can live. The Government then agreed to this proposal. The Indian Prime Minister said that he will "consider the issue of having separate 09e8f5149f

But it is not only He who was worshipped and meditated upon, His desire is meditating upon Him. In the midst of all the world, with all beings, and all bodies, He meditates upon Himself. What to say about all the Gods and all the beings, all the world with all its beings are also His Self-worshippers, and their Self-worshippers. Sudhakar : Hi! I am very delighted to welcome you to this marvelous book. Congratulations and thank you very much. Sir: You are welcome. Sudhakar : Let me ask you on the very important question – I am going to ask you a very keen question. I am very keen to ask you on the very important question and devotees are not going to respond it without any doubt. What type of God is there who is creator? Sir: Of course there is a God Who is Creator, as He Himself has said, He is the creator. Sudhakar : But to create means to create a form or to establish a form. Like the light of the Sun is neither formless or formless. So the God is said to be creator; but in a sense He is formless, but this is formless as only the mind of Him who created is to create, and it is not in his power and mind to create something that is not, or that has no form. How is God formless? Sir: In the
