
Function Discovery Print Provider Dll Has Stopped __HOT__

BUG: Feature detection print provider DLL stopped working during printing after KB4516061 caused a print issue last week. Net. Solution: KB4516061 no longer appears on my Windows 10 PC. Unfortunately this solution cannot solve my problems I updated my image to the latest Windows 10 and then updated all drivers. I have updated all printer drivers that I need. All printers have been updated including my HP LaserJet 3055 printer. After updating the drivers in the printer settings, I disconnected the USB connection and tried to print again. After several attempts at
