BlaBlaCarbine-FrontEnd-WebGl { position:relative; top:0; left:0; } About Last Night... Last Night: Heat 106, Jazz 110 Last night the Miami Heat once again proved why they are the most talented team in the NBA, and from start to finish they looked destined to win this game. The Miami Heat are 2-1 at this point in the season, and although they won a game against the Bulls, I still believe they had it in them to lose last night's game to the Jazz as well. Well, I was wrong. Miami took a 3 point lead into the 4th and still had plenty of time to put away this game, and they did it by coming out firing on all cylinders. Miami's defense was on point all game long, and combined with the Heat's talent and offense they were able to completely shut down Utah's offense. Here are some highlights: The best part of this video is how proud LeBron is during his team-mates defense. He seems more concerned with how his guys are reacting to what he wants to tell them than the actual defense. I enjoy it. Early in the game, LeBron was attacking Derrick Favors and after a few drives was forced to kick it out away from the basket to Josh McRoberts. As you can see, he got tangled up with Al Jefferson and was forced to take a shot. After this play, Utah began working the free throw line and Dwyane Wade stepped up. This is where I thought he was going

fitting to the game. I was really happy with the graphics. It is not as good as the Witcher 3, but it is very nicely done. I would recommend this game to anyone that enjoys fantasy, and to those that play fantasy that enjoy a good story and overall good experience. If you want to read more about the game, there is an even more in depth review here. ~~~ END REVIEW ~~~ The people that gave this game such a low score are being ridiculous. I am really surprised. I think it is a good game for Fantasy. It doesn't require a ton of grinding to complete the game. I really didn't care for the movement, it felt like the platforming in games like Super Mario Galaxy, but it didn't matter because it was done well. The story in the game was really good, I felt that the graphics could have been better, but it was fine. I loved the dialogue in the game, I thought it was well done. I would recommend the game to any person that likes fantasy games, or the Elder Scrolls series. If you want to read more about the game, there is an even more in depth review here. bff6bb2d33
