Read on to find out which changes Fifa 22 Full Crack brings to PES, how to download it and how it compares to the other games in the FIFA series. FIFA 22 Applies the Same Engine as FIFA 17 to PES If you played FIFA 17 then you'll immediately feel at home with FIFA 22. They are both powered by the same FIFA Soccer engine. It's the same engine powering PES, too. Even the menus are the same. It's as if EA and Konami haven't changed anything that's happening on the pitch. But of course they have. FIFA provides the framework for PES's changes, but Konami are the ones making the actual additions, changes and enhancements. FIFA is merely providing the template. So what has been added/changed in FIFA 22? Zonzo! Hyperkinetic Zonzo. FIFA 22 introduces Zonzo. Zonzo is our soccer genius, coming up with the most elegant, goal-scoring move we've ever seen. That's what's new. Zonzo is an instant-action, high-velocity, high-accuracy dart in the opposition's penalty area. Zonzo is a great way to score. You might be thinking, "How is Zonzo any different from the other new move of the year, the Volley?" Well, Zonzo is a very different weapon. Instead of launching a semi-invisible ball from mid-field, Zonzo is a shot-on-sight, ricochet missile. The more players the shorter the flight - if there are only two defenders on the ball the Zonzo will bounce around the penalty area, spinning in crazy circles, before eventually slamming into the far post. Zonzo: The Ultimate Goal Scoring Move You'll receive a Zonzo opportunity once you have possession in a non-defending team's defensive third. Zonzo must be used there. We recommend you use Zonzo as soon as you see a defender on the ball in your own half; the longer you let the defender have possession the more your attack will slow down. Zonzo works best when used against a team full of weak defenders, but it's not as easy to score as the Volley. You can't
