The game's motion-capture technology is not only used to empower new game elements, but is also used for drills and shooting range testing. Building on FIFA 21's innovations, FIFA 22 introduces a completely new experience with unparalleled realism. With the addition of motion capture, FIFA 22 offers the most authentic, exciting and skillful football experience yet. HOW DO I USE BOLSTYLE TO PLAY SIMPLY? Simply load your account in BOLSTYLE and you'll be able to play on both Android and iOS devices without data transfer. HOW DO I SET UP MY MULTIPLAYER ACCOUNT? Simply log in with your BOLSTYLE Account and you'll be able to play on both Android and iOS devices without data transfer. WHAT IS BOLSTYLE, AND HOW IS IT DIFFERENT FROM OTHER SERVICES? BOLSTYLE is a brand that provides the most advanced mobile service in the industry. With BOLSTYLE your account will always be available on both Android and iOS devices, and at the same time you will be able to play on Windows devices. Sporting events will not be affected by any mobile operator, and the service is compatible with all mobile services in Portugal, Spain, Brazil, Russia and UAE. As for any service that provides downloads on both Android and iOS devices, you can only download BOLSTYLE services on your mobile devices, as we cannot transfer data between mobile operators. HOW DO I SIGN UP FOR MY BOLSTYLE ACCOUNT? First, you must activate your account on the BOLSTYLE website. Second, you must verify your mobile number to confirm your identity. After that, you'll be able to verify your mobile number on the BOLSTYLE website with O2 GB or O2 Italia. If you have already subscribed to a mobile number from an O2 mobile service, you must disconnect your mobile number from your O2 subscription and reconnect it to a new O2 mobile service in order to do so. Please read this article on how to disconnect your mobile number from your mobile service. HOW DO I CHECK MY BOLSTYLE ACTIVITY AND BILLING STATUS? From the home page, click on the gear icon on the top right. Select

Features Key:

- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data captured from actual 22 players playing a complete, high-intensity football match in action. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay. A new algorithm delivers deeper contextual commentary and deeper and more personalised scouting reports.
- Creative animation unlocks a new level of authenticity with 360-degree referee animation and more.
- 19 leagues, four kits, better ball physics, 17 authentic stadiums and a host of enhanced competitions, including the UEFA Champions League.
- Configurable formations and substitutions, giving you more control over tactics.
- Make-shift Robot Masters, challenge the AI on 28 level layouts, including new outdoor pitch designs.
- A new player intelligence system, which replicates player technique. It explains run-up and passing and defensive positioning, allowing more situational awareness.
- Designed for flexible gameplay, featuring a REFRA adjustment system that adjusts all gameplay aspects depending on the situation.
- FIFA Trainer - deliver high-end optimised tutorials tailored to your ability. You choose the difficulty setting to be as firm or as gentle as you like.
- New music from award-winning FIFA composers Armando Navarro and Hans Zimmer.
- FIFA 21 Deluxe Edition.
- The Hazard Makeover collection - improve your relationship with the primary balls in FIFA.
- Dynamic Pro Player animations, which dynamically adjust to any style or skill level.
- Witch Doctor, the Mascot - be an honorary member of the Overwatch team. Choose your own team name and kit, suitably bedecked in your team's colours. Your Mascot will lend support and cheers to your team wherever you are.

jQuery.validate.js:14 TypeError: \$.validator is undefined I wrote a short function to validate all fields in the form and remove the field and the error message if it's not valid and add a class to the submit button if it's valid. When I test this I get a TypeError: \$.validator is undefined. Why is that? And how can I fix it? function checkForm() { var valid = true; \$('.remove').each(function() { var fieldName = \$(this).attr('name'); var element = \$(this); var validator = \$('#'+ fieldName).validate({ rules: { name: { required: true, minlength: 3, maxlength: 30 }, code: { required: true, length: 4, minlength: 4 } } }).form(); if(!validator) { \$(this).remove(); valid = false; } else { valid = validator.form(); } if(valid) { \$(this).addClass('valid'); } else {
