“We’re very excited to have started working with the incredible gameplay team to create an evolution of how players move in our game,” said Jerome Valcke, CEO of FIFA. “Fans of FIFA around the world have been asking for physical player models that match the athleticism and speed of the world’s best soccer players, and we’re thrilled to finally be delivering on that promise.” HyperMotion Technology uses a new physics engine driven by motion capture data from more than 300 players. The engine simulates the tight control and responsiveness that every player needs to feel just as fast, powerful and agile as their real-world counterparts. “HyPHAtion Technology uses millions of data points from top-level athletes in different game modes,” said Andreij Zorin, Lead Designer at EA. “With this technology we aim to recreating the speed and fluidity of a real match. Everything we do is focused on delivering a goal-scoring experience that only real world athletes could provide.” Additionally, players will be able to see the impact and feel the power and speed of their real-life movements in “Fifa 22 Product Key: FIFA Interactive Player” mode, which allows for players to experience a real-life game through the eyes of their favourite player. Developed by EA Canada, “Fifa 22 Product Key: FIFA Interactive Player” mode will be available for players on PS4, Xbox One and PC this fall. Players can also use the game’s new “Real Player Motion Technology” to walk in the shoes of their favourite player during free-kick drills. For a full list of FIFA 22 gameplay features and

Fifa 22 Features Key:

- Unleash stupefying tricks like you'd only seen in shows and movies. "We are giving the players that ultimate feeling of where to go and how to take advantage of a situation like no other game has done before. Even if it's something as simple as going back for a closer shot, or hitting the ball through a defender's legs. We have recreated what you actually do in the physical game. It's that pure excitement and unpredictableness."
- "HyperMotion Technology," a motion capture system powered by real-world data from 22 football players during a full-intensity match. Get ready to use instinctive reactions, timing, and instincts in game-play. "More than a soccer game, FIFA 22 is a game about both the on- and off- the field aspects of life. We explored a lot of the social ramifications of gaming and playing. How do you define a player in the social space? How would you go about your friends introducing you? How do you get out of that, and how do you deal with it?"
- Play as elite footballers including Messi, Cristiano Ronaldo and Neymar Jr
- Choose from over 2000 licensed club squads, including Manchester United, Milan, Club Brujuni, Borussia Moenchengladbach, and Eintracht Frankfurt.

EA SPORTS FIFA is the world's leading soccer series. It has sold more than 140 million copies worldwide and won game of the year every year since FIFA 14. FIFA Ultimate Team™, the biggest mode in the series, has more than 40 million players around the world. FIFA embodies the true spirit of football, and players control the very best athletes in the world. They use their real-world skills to score goals, make saves, control the ball and provide cover from defenders as they compete with friends and rivals in the most authentic way possible. The FIFA world tour brings the sport of football to fans around the globe on their mobile devices, and puts players in the manager's chair to lead their national teams through qualifying and tournaments. 2 months ago EA SPORTS Launches FIFA 22 for iPhone, iPad, Android and Windows Phone Devices. FIFA 22 is bundled with a brand new expansion, FIFA Ultimate Team. FIFA 22 — Getting to Know the Game FIFA 22 features a new AI system, game intelligence that makes the match flow and team tactics adapt throughout the match, and new intuitive tutorials for players. It also features fundamental gameplay advances, a brand new season of innovation across every mode, and new gameplay features like dribbling, passing and shooting. FIFA 22 introduces sophisticated new gameplay features that add a new dimension to every aspect of the game. These include dribbling where you can control your players' speed with your touch, passing with new passing options, and shooting where you can strike the ball anywhere on the pitch. Every team has new formations and tactics for you to strategize, and gameplay changes like being able to control your teammates and opponents in the final third of the field will make the final moments of a match even more tense. FIFA 22 improves the feel of the overall experience with new animations for ball crossing, new dribbling mechanics and for the first time, a dynamic offside system. The new in-game camera offers improved functionality, as well as an improved viewing angle. The game also includes 11 one-of-a-kind stories from football's legendary players and personalities, each with their own unique look and feel. Each story features a series of challenges and mini-games. 10 Players FIFA 22 introduces the newest group of competitive superstar footballers: Virgil van Dijk (Liverpool), Kylian Mbappe (Paris Saint-
