The new visual and audio details are the result of carefully tuning the actions of the human player and pitch conditions.

Changes to ball physics and ball flight mechanics have also been included in FIFA 22 to help players control and track the ball more effectively. For the first time in FIFA history, players have the ability to control the ball with their hands, allowing them to pass, pass, dribble and shoot with ease. Ultimate Team features 100+ cards in two packs: Gold and Platinum. The new 'Hands of an Icon' packs reward a new, more complete player with each purchase and offer cards from top stars. Play the game's first 11 years of card-pushing in the all-new Ultimate Card Attachments Pack for a chance to unlock new and rare cards. The FIFA Experience FIFA features tons of detail on the pitch, from a new 3D pitch to new crowd animations, refereeing, ball physics and gameplay. The game also features an all-new Career Mode and FIFA Ultimate Team for the first time. That all sounds great, but the game also brings the true simulation experience to the pitch. The first step towards getting the true feeling of the game is the new ball physics. A real football fan can never run out of new ways to show off to their friends while watching a match. New turf will make those touches and tricks even more realistic and more impressive than ever before. Every surface

type now supports different techniques, all of which offer a rewarding challenge. The last thing you would expect from a football game is a hook, but EA is bringing that to the new 'Orbital Attacking' style of gameplay with the all-new dribble controls. Fans will love it, FIFA players will love it. Wonders of the New FIFA Experience FIFA brings the most detailed and authentic soccer experience possible on Xbox 360. New Atmosphere and Turf: Watch the ball roll across new virtual turf surfaces and the angles of players' runs and dribbles become more varied. Watch the ball roll across new virtual turf surfaces and the angles of players' runs and dribbles become more varied. Authentic Ball Physics: Watch the ball bounce, drag and spin in a realistic way. No more artificially exaggerated energy bounces or the way players run with such unnatural speeds. Watch the ball bounce, drag and spin

## **What's new:**

- **HyperMotion Technology**
  - **What is it? Real footballers have trained and played all their lives to master the art of 21st century football. The same is true for the sport of football, and the only difference is that real footballers wear motion capture suits, which record every one of their more than 500 million movements during a game - allowing us to re-create the intensity and flow of real football.**
  - **What can it achieve? The technology used in FIFA Ultimate Team gives us a realistic picture of how your top player will play, creating an authentic experience when you select a footballer.**
  - **How do I get it? When you download your copy of FIFA 22, you will automatically receive HyperMotion Technology. Although this is an initial step for this new technology, we will continue to refine it and introduce more tools in future titles.**
- **In-game Twitter Stats: Get your own player's Twitter stats in-game - letting you know what that 1 vs. 12 player is doing on Twitter.**
- **Updated Transfer Window: Players can now move from club to club in the Transfer Window, allowing more free-scoring midfielders to join your squad.**
- **Scorebook improved: The scorebook has been updated to offer up better visualizations of the goals scored, and a player's last goal is now also marked.**
- **Technical improvements to Career Mode: - Improved goal progression - More detailed player stats and player attributes for managers - Improved player loadout editor - Provided a more detailed look at the contents of your team's manager-created Player ID cards**
- **Improved lower leagues: - Over 500 total custom-created lower league teams in the UK (5 in Scotland), Spain (3 in La Liga), Scotland and Japan. - An extra update of 28 new lower league teams (1 in Spain and Germany, another 4 in Scotland, Spain and Germany)**
