What's New In?

This application enables the user to save multiple videos from a website such as YouTube etc. in the desired format. Key features: - Faves list - Search and download selected videos - Download videos from playlists - Search through videos in the list - Save videos in the desired format - Supports numerous formats: MP4, M4A, 3GP, FLV, WebM - Supports video editing. - It can download and save into any folder. - Toolbar at bottom of the screen - Large and detailed list of features included in the program. - Enable the program to download embedded videos as well. - Compatible with Windows 7, Vista, XP and Windows 2003. - Compatible with Windows 2000 or Windows ME. - Free Download ScheduleOnline Pro YouTube Video Downloader is a powerful and effective software utility whose main function resides in offering you the means of saving your favorite videos from YouTube to your computer, with little to no effort entailed. The interface is highly professional and needs no introduction since it perfectly demonstrates how the program should be from an interactive point of view. Clean and novice-friendly GUI Appearance-wise, the application is very simple to understand and handle, with little left to the imagination, thanks to its straightforward functions and features. The main window of ScheduleOnline Pro YouTube Video Downloader displays a ribbon with several buttons that allow you to add the links corresponding to the movies you wish to save, while also letting you adjust the process' 'Settings'. Download YouTube videos on the fly The program is capable of grabbing videos individually or in batch, enabling you to input the link for one or several YouTube entries. At the same time, it is capable of saving all the items from an indicated playlist, thus being able to work with countless files simultaneously and saving you the trouble of adding links one by one. By default, ScheduleOnline Pro YouTube Video Downloader exports all files to the best available quality, but you can choose a different format and visual quality from a dedicated menu, prior to starting the process. It includes MP4, M4A, 3GP, FLV, WebM and others, even supporting HD quality. However, you do not have the option of extracting only the audio stream. The tool gives you the possibility of modifying the destination folder for the saved files, while also letting you choose a 'Post-encode Action', specifically 'Shutdown PC🔌
