Vw polo 6n service manualÁ .My first interview of the day was with PR professional Dora Jones of AMAL. Dora is in her mid-30's and has been with the company for almost three years. She is a former college-level communications major who worked in jobs ranging from product PR to communications. Ultimately, it was a PR position in a fast-paced, customer-facing environment that really got her hooked on the profession. Is PR Best for Your Career? "Absolutely! I don't think the industry has been able to catch up to the important of PR within a business. As I got into the workforce, I realized that the reality of working in a media-driven industry was rarely what I thought it would be. The more I asked "why?", the more I learned there is a place for all of us to play an important role in communicating with the public and to further the causes we believe in. Being able to communicate, to translate complex, difficult information into something that can be grasped by the public and can help them to understand a topic is very powerful. Of course, like any other occupation, there are challenges and difficult situations that come with working as a PR professional. However, the key to success is tackling those challenges. As a PR professional, I am always learning and using new and existing technology to help me better communicate with my team, company, and the public. I think 'being PR' is a huge part of what I do. It is an important aspect of what I'm 'doing' in my day-to-day, but it's also something I'm an expert at. I might get a call from a client that needs me to be successful at a new event, or when an employee wants to be posted to a press release. During those times of needs, I'm able to use my skills and experience to help them be successful and proud of their success. Many PR people get caught
