Announces Grant of Oil and Gas Mining Lease in the U.S. Mid-Atlantic Region with Possibility for Lease Sale VANCOUVER, BRITISH COLUMBIA--(Marketwired - May 5, 2013) - SeaBed Energy Corp. (TSX:SEM)(SEA) is pleased to announce that the U.S. Secretary of the Interior has awarded a license to a partnership controlled by SeaBed to prospect in the Atlantic Ocean off the coast of Virginia, and other states in the United States. The area of interest is known as the Atlantic Flyway, and includes waters in three U.S. states, including Virginia, offshore Virginia and Maryland, Pennsylvania, New Jersey and Massachusetts. The Atlantic Flyway area has previously produced legacy heavy oil and gas resources, and includes the unleased Hog Island acreage which is of a size and scale comparable to the Landing Zone owned by SeaBed. SeaBed plans to renew its lease efforts in this important basin at a later date. A press conference will be held tomorrow afternoon for further details. The limited partners of Sea Bed, who own approximately 76% of the company, are pleased with the Secretary of the Interior's decision. "Sea bed's new venture partners, Blackbird Resources, have commenced operations in the Atlantic Flyway with a view to initiating lease sales, which we hope to begin imminently," said John Hess, managing partner, Blackbird Resources Inc. "We believe that it is important to initiate well testing and surveys to confirm the commercial nature of our prospects prior to declaring any interest in them. Additionally, we expect to follow-up with an acquisition of an interest in areas that ultimately produce commercial quantities of reserves." Rick Chiarelli, SeaBed's Chairman and Chief Executive Officer said, "Over the years SeaBed has aggressively acquired, tested and developed an extensive portfolio of prospects within the sub-sea Gulf of Mexico as well as the world's premier deep-water areas across the North Sea and globally in the deep waters off New Zealand. Our intentions are to continue this strategy in the United States of America in order to further expand our North Sea and world-class continental shelf holdings. This decision has proven to be a valuable opportunity to further develop and grow SeaBed within the United States of America. We are extremely optimistic about the exploration results to come and look forward to continuing our agreement with our joint venture partner, Blackbird Resources as we move forward into 2013." The Atlantic Flyway license granted to

Date with Death is a RPG-platformer with a very original concept and a unique art style. Date with Death offers up a surreal world full of mystery and intrigue. The characters of Date with Death are trapped in a strange place where death is always at the corner waiting for them to make a wrong step. In order to get through the game and successfully save the world, you must discover the essence of this place and find the way back to your family. The game is a cross between a platformer and a point-and-click adventure. Storyline: A mysterious place, a clock tower, where life's high is not enough to celebrate if you're still stuck inside that place. A helpless teen girl, trapped inside the clock tower. A mysterious being, who appears out of nowhere and disappears. A lonely young man who is in love with this mysterious being. An entity that watches over all people, demanding a human sacrifice. The clock tower is a strange place, never crossed by normal humans, no one has ever walked the halls of this tower. When the young girl Suzu wakes up in the tower, she finds herself in a crazy world full of secrets and clues, which she has to solve in order to get back home to her family.
