I just came across this new mod for CK2 which removes all the ads on the computer screen and makes the game really pretty. The quality is nothing short of incredible but it works in the opposite direction of all the other mods i've seen recently. It adds the ads instead of removes them. Have we not seen anything like this before? You are watching the 'prologue' to your own ad campaign. Admit it, you've been looking forward to it all your life! This mod is really good... And I really suggest this mod to all the people who enjoy playing CK2... Zer0bemot This mod is really good... And I really suggest this mod to all the people who enjoy playing CK2...
