In Super Awkward Clothes, you play as a regular everyday teenage girl. You're walking in the street, and you get hit by a car. Instead of dying, the car takes you to an alternate dimension. In this alternate dimension, you find yourself in a nightmarish world where you spend most of your time getting hit in the head by objects. You are forbidden from screaming, and most of the inhabitants of this dimension are obsessed with the color purple. There are a number of subplots and unusual situations you must solve, including a giant horse created by Doctor Wondertainment, a crow who wants to take over the world, a legion of abandoned child warriors, a secret society of mermaids, and more! Features: An original concept with interesting and strange characters Six unique environments to explore Unique storyline, rules, and game mechanics Multiple endings based on your choices Over 30 min. of puzzles An original soundtrack composed by award-winning game composer Tom Kovach Major visual and sound updates inspired by today's gamer Get ready to meet your new best friend in the alternate dimension:This invention relates to a method of and apparatus for performing arterial-venous dialysis.

Arterial-venous dialysis systems are used in treatment of patients suffering from kidney diseases which may require replacement of uremic toxins in the blood by metabolic elimination of those toxins or a combination of metabolic and parenchymal elimination, or, in a manner such as to measure the effect of the toxins removed. Hemodialysis and peritoneal dialysis are two examples of such systems. One example of a hemodialysis system is shown in co-pending U.S. patent application Ser. No. 173,838, filed July 26, 1980, of Stephen E. Robinson and entitled "Automatic Dialysis System", which has been assigned to the common assignee of this invention and which is incorporated by reference herein. Such systems generally comprise means for dialysing blood withdrawn from the patient from the femoral vein. Thereafter, the dialyzed blood, either alone or in combination with processed blood obtained from the patient, is returned to the patient via the femoral artery. This enables the patient's natural elimination process to be measured and to some extent replaced. Particular problems encountered in such dialysis procedures are caused by the sudden increase in blood pressure caused by hemodial

### Features Key:

- **Mechanics and Revolver** - This maps combine Mapper's foundry rich Technological arsenal with the mechanics and the firepower of a pistol.
- **Very Mild 9MM** - The most mild smoking pistol you can get your hands on without getting shot.
- **Both Magic and Non-Magic Edition** - This is a nice addition for both the mapper and the children.
- **Cute Cubist-ish artwork** - Again this is meant for a child but you might have fun also.

\$14.95 in black box (3rd party).

The game world of KOMA is based on real-life scanned places combined with light-and-sound art pieces of 404.zero. It is a nonaddictive 30 minutes mind refreshing experience filled with 404.zero's live sessions music. Tiger Fighter shows you how different locations in the game world were built. It is a complex mix of pixelated and light-and-sound art pieces, with and without sound. The main goal is to identify various elements of the world and interact with them. Tiger Fighter 1931 has a game world with 11 main locations, including a dog factory, a forgotten circus, a plane hangar, a car garage, a jail cell, and an abandoned circus. Each location has 10 different levels. Starting on any level, you have to find a password to obtain access to the next level. Each location has a theme (circus, factory, etc), which is represented by different objects. You can interact with each element of the location using the game controls. Discover and explore the interactive features and learn what they are. Elements: - Player can walk, run and jump. - Game controls (joystick) are available to explore the game world. - World scanning is based on photographs. - There are no tasks or goals to accomplish. - No reward to achieve. - No incentives to achieve. - No enemy to defeat. - Some rare items may be found in specific levels. - No brain dead gameplay. - No time limit. I own the original SEGA Mega Drive and emulator version and happen to think that emulator version is better. I'll rate it 10/10, it deserves all the love it gets. Worth every cent spent on it and what's unfortunate for us is that we don't get to play it, as it's not released anywhere else in Europe. We have SEGA as an adversary. Level design seems to be top notch, and for a Genesis game, there are some nice graphics such as a 2D Printer. Some nagging flaws can be found, such as the hitting enemies are not seen, and the "tracer" of the Jet versions will not show. I know that I recall reading elsewhere this was a bug in the original PC version of Jet Action/Jet Action 2, but it does bug me that they couldn't fix it. The controls seem to be a decent control scheme, but may feel a bit awkward at first but unless you are comfortable with the Microdrive controller, you should probably not play it right away. The bosses seem to be unforgiving, but I guess that's the idea of boss fights, and so I never really get frustrated when facing them. All-in-all, a highly enjoyable game. An 8/10 for me. This is a good side scrolling shooter that comes with nice graphics (for the Genesis) and superb level design. This game is a little different than the very similar Level Boy since it's a bit more challenging (like the graphics). However, yes, this is a**
