

Motion capture analysis is included in the following key areas of FIFA 22 gameplay: - Player Recognition (Side-to-side movement) - Player Footing and Handling - Tactical Movement (Dribbling, Dribbling With Vision, Interceptions, El-bows) - Build-up and Penetration Plays - Cutbacks and Turnovers - Passing, Unrestricted Passing, Set-up Play - Counter-Attacking and Offside Play - Defending and Counter-Defending - Balancing the game in asymmetric scenarios New systems created to evaluate and facilitate player movement, build-up plays and teamwork, such as: - Blindside Movements - Real-Time Team Management System - Game Impact Player Control System New interactive player models such as: - "Sprint and Tackle" - "Melee" - "Off-ball" - "Off-the-ball" - "Dribble and Pass" - "See-and-Gone" - "El-bows" This training content is designed for coaches and players who wish to enhance their tactical knowledge and technique. We hope this free content becomes an invaluable resource for players of all abilities. Training Goals The short-term goals of the training content are to enhance the gameplay of the football skills that are lacking the most in FIFA. The long-term goals are to raise the awareness of players to the possibility of scoring within a limited time, and to enhance players' technical awareness. Common Problems with the gameplay of many football skills When it comes to skills that require distance to the ball, or when some players are not accustomed to moving fast, the ball can move too early, too late or directly towards the goal, significantly limiting players' ability to attack the goal. In these situations, the ball tends to hit the player's feet too early, allowing him or her to move out of the way of the ball. Also, when a player is attacked with a high speed, the ball has a tendency to hit the attacker's heels, often kicking them out of control. On the other hand, when the ball is too close to the player, the player often fails to obtain

Fifa 22 Features Key:

- "Introducing HyperMotion" Technology – You will feel the excitement when your opponent turns over the ball or runs through your perfect pass. "HyperMotion" will react to your player's actual movement in the game as it appears on screen.
- Learn the game from wherever you want – FIFA's online Training Center will give you the information and resources to help you improve your skills.
- New Pass Creator – Perfect over-the-top passes and low shots as any Pro would do. With the All-New Pass Creator, users will be able to generate custom passes like never before. The Pass Creator will also allow users to implement lots of signature FUT Player Modifiers into their custom moves.
- New Systems & Features – FIFA 22 will include all-new Goals, Fan Appreciation celebrations, Direct Kick Moments, another EASIEST style of play, and much more. All these features are brought in line with the FIFA 20 year anniversary.
- Visual Appeal

FIFA is a series of association football video games, originally developed by EA Canada. It was first released for the Apple II in September of 1985, and went on to become one of the most successful sports franchises in video game history. Based on the television series of the same name, the game is played on a 3D grid-based map. There are three main game modes: FIFA Soccer: The physical game mode, featuring 12 player teams in both offense and defense, and a varied set of short and long-distance passing and shooting controls. The physical game mode, featuring 12 player teams in both offense and defense, and a varied set of short and long-distance passing and shooting controls. FIFA Ultimate Team: A card-collecting, online-only game mode, where players can unlock new players and stadiums by assembling a team of soccer legends. Career Mode: Featuring a fully realized franchise mode with a map and "enhanced development" of your club, the game offers an "all-in-one soccer experience". Features FIFA 22 provides a year-round new experience across all modes, while also supporting the long-standing philosophy of FIFA's longevity, continually improving the game year on year. KEY FEATURES The golden generation - FIFA is synonymous with its long-standing gameplay innovations, and FIFA 22 brings the golden generation of football to life: Agility Drives Soccer: FIFA now allows players to use the ball using a natural and intuitive "dribble" mechanic, giving more control over movement and play. Players become more aware of where teammates are while more players have room to make runs and receive passes. FIFA makes you use the ball in a different way, and its style of play has been adapted for a new generation.
