Q: Sort data in flash from back end php in as3 i have this code that adds event listeners for button's onclick private function addEventListeners() { addEventListener(MouseEvent.CLICK,buttonClick); } private function buttonClick(e:MouseEvent):void{ e.target.x=100; e.target.y=100; } it works fine when there is only 1 button but i have a problem when there is more than 1, for example : private function addEventListeners() { addEventListener(MouseEvent.CLICK,buttonClick); addEventListener(MouseEvent.CLICK,buttonClick); addEventListener(MouseEvent.CLICK,buttonClick); addEventListener(MouseEvent.CLICK,buttonClick); } private function buttonClick(e:MouseEvent):void{ e.target.x=100; e.target.y=100; } in this case the listners are added in order they are created why this happens? And is there a way to sort the listner's by name, first the button with name="xyz" then by name="abc"? A: if (e.target == e.currentTarget) return; // handle single target e.target.x = 100; e.target.y = 100; that's how you would only set the x, y, or both if it's the current target e.currentTarget This property is only meaningful when event is dispatched by the MouseEvent.MOUSE_OVER_OR_OUT_OF_FRAME event type. The properties of the Event object may be defined in either event or target. If both types are specified, the event type is MOUSE_OVER_OR_OUT_OF_FRAME. Also, if
