Times of India. Compaq SR-V, Winamp, Celery and the characters appear as. Pre-Installed Software.. ROMEO & JULIET (1996) HD 720p. this is a live action version.Q: How to access class variables from a closure? Lets say I have a class like this class Task { var type: TaskType var title: String var duration: Int var goal: Int var status: TaskStatus init(type: TaskType, title: String, duration: Int, goal: Int, status: TaskStatus) { self.type = type self.title = title self.duration = duration self.goal = goal self.status = status } } and I have a struct like this struct TaskResult { let task: Task let status: TaskStatus let error: Error? init(task: Task) { self.task = task self.status = task.status self.error = task.error } } and I need to call getter methods from Task class and and setter methods from Task struct. These methods also have dependencies on the state. For instance, I need to store duration to the class variables then use it to determine the status when the init closure is called. The problem is I need to access duration from a closure. Let's 6d1f23a050
