It is McCammon's second novel and was published in November 1989. Plot First person narrator Chase is a young American man who spends his life working for a fictitious record label, legendary record company Sordid 81. It is Chase's job to find buyers for the company's stock in "surreal collectibles". One of his first assignments is to find a buyer for the Sordid 81 company's stock of tapes titled "My Finest Hour"--a tragic album that chronicles the growing relationship between a teenage girl named Myra/Moira and one of her rock idols. Chase is directed to the young and successful record producer and composer, Richie Wolfe (pronounced "Wolf"). While Richie does a great deal to help Chase sell the tapes, in the end Richie fails to do so. Richie Wolfe leaves his record company and joins a band. He turns out to be a rather skilled guitarist and the lead singer of the band is none other than Myra and Moira, now age 18. At their first meeting, Richie lets it be known that he'd like to meet Myra again, for old time sake. As they spend time together, they get engaged, although their families discourage the engagement. Richie's record company doesn't want him to become a solo artist and is happy to license his song "My Finest Hour", which has an anti-hero (Richie Wolfe) who is not in fact a hero at all. Richie's record company has him remove his image from the album cover and package it in a different fashion. Richie is unhappy with the collaboration and pressures Myra to drop her engagement, leaving Chase with his out of work problem. Richie and his band are finally signed by a larger c6a93da74d
