I know that if X is a topological space then \mathbb{R} with the topology it has inherited from X is continuous if and only if X is continuous. A: Hint Given U an open set of \mathbb{R} then U is \mathbb{R} with the indiscrete topology is a subset of \mathbb{R} which is open in the indiscrete topology. Look forward, looking back: the role of positive self-reflection in the process of successful aging. The purpose of this study was to examine the role of positive self-reflection in the process of successful aging. The final sample consisted of 194 older adults (70 to 89 years of age) enrolled in senior fitness centers in four Midwestern states. A path analysis was used to test a model in which positive self-reflection influenced three aspects of successful aging: autonomy, physical function, and happiness. This study found that positive self-reflection was associated with c6a93da74d
