after browsing for your theme and clicking the install now button, its possible your wordpress installation will ask are you sure you want to do this this could be due to the fact that you are trying to install the wrong zip file (remember you want the installable wordpress file only) or its possible the upload limit on your server isnt large enough. if youre using mendeley desktop to

manage your files, you can upload files directly to your mendeley account using the mendeley desktop uploader. this makes it easier to add files to your mendeley desktop library, and to move them from one mendeley library to another. to upload files, go to the file organizer tab in mendeley desktop, and select the upload files option. click the browse button and locate the document or folder you want to upload. you can also drag and drop files into

this window. in this step, we will show you how to upload files using the wordpress media library. we will cover a few basics and how to make a few adjustments to improve your experience. to begin, youll need to log in to your wordpress admin panel. if you dont already have an account, youll need to register. when youre logged in, click on the media library icon to open the media library page. the first time you open the media library, you will see

a screen that looks like this. here you can see that the media library has been organized into media files and subfolders. you can use the left and right arrows to move through the folders. you can also use the search box to search for specific files. here you can add a file or a folder of files by clicking on the browse button next to the add file button. you can also drag and drop files into the window. click the upload button to start the upload.

you will then be shown a screen like this 5ec8ef588b
