    "copyright © 2017 newtone" the  
newtonevstpluginfreedownload function acts like
```

the newtonevstpluginfreeplay function, but instead of rewinding the audio sample data, it frees the audio sample data.

newtonevstpluginfreedownload works in conjunction with newtonevstpluginfreeplay and is used to allow a host application to manipulate sample data (in the form of chunks of audio data) without having to do any costly rewinds. the newtonevstpluginfreedownload function can be used in addition to newtonevstpluginfreeplay, in which case the newtonevstpluginfreedownload function is called after the newtonevstpluginfreeplay function and the audio sample data has been rewound. if the newtonevstpluginfreedownload function is called in the destructive manner (that is, the newtonevstpluginfreedownload function is called without a previous call to the newtonevstpluginfreeplay function), the newtonevstpluginfreedownload function is destructive -- that is, the audio sample data is destructively freed. 5ec8ef588b
