PowerDirector is a fully featured editor that can help you create high-quality videos quickly and easily. Its one of the more popular mobile apps out today with over 130 million downloads, a high user rating and recognized as Google Plays Editors Choice. As with others on this list, it is the best Youtube editing app with all the basic video editing tools such as trimming, inserting titles and transitions are available for you to use right after you launch the app. However, what sets PowerDirector apart are the advanced editing tools and special effects that can help you create videos that are truly one of a kind. If you shoot with your phone or an action camera, fix your shaky footage with their stabilizer which can make your videos easier to watch. Use their speed adjustment tools to create slow-motion or fast-forward videos. If you purchase the software now, you can receive multiple products from the program, including templates and pre-made albums (to be opened in the new application and MMS layout). When you purchase, you can request a product key and download it instantly. You can use the product key to use the full version of the program and create music and photo-albums. You can use

the templates from MMS and apply them to your albums. If you have trouble using the templates from MMS, please visit the MMS website and download them directly. - You may export your albums from the full version and print them for presentations. More content is included with the full version than the Trial version, and allows for more realistic and interesting presentations.
