The AnyConnect program, produced by Cisco Systems, Inc., is designed to provide Internet access services based on VPN technology for connecting mobile devices to servers. The expiration date has nothing to do with licensing.

Winsetup-release-web-deploy-msi-cisco

... /unable-to-install-anyconnect-client-quot-winsetup-release-web/td-p/2699218 ... AnyConnect installer: anyconnect-win-4.7.04056-core-vpn-predeploy-k9.msi is the AnyConnect server installation package. Pay attention to the version number. To install the AnyConnect client, you need to install the support package and driver for Windows. Unfortunately, the Linux driver is not included in this package. Installing AnyConnect: anyconnect-win-4.7.04056-core-vpn-predeploy-k9.msi (the file I'm working with) Run the installer and follow the wizard. In the first step, specify the folder where you want to install the package. I left it at default.
