Heartless is a contemplative drama about a serial killer and a target-driven teen who forms an unlikely alliance to track down their arch nemesis. The events in Heartless are based on the life of serial killer Robert Anthony Walters, who was convicted of murder in the United States in 1972. Although scheduled for release in 2013, the film went through multiple troubles and had been postponed a number of times. It is an action-drama film, with a runtime of 1 hour 10 minutes. Filming of the film took place on location in California, Los Angeles and Miramar, Southern California. The initial production budget for the film was an estimated USD \$60 million, with additional production investment of \$22.3 million and post-production of a further \$25 million. Heartless has been a hugely delayed project, with several setbacks in its development, and has been often compared to, and was often described as, a 'Memento for Murder', a comparison that even the director himself finds disturbing. In November 2011, it was announced that acclaimed director Bennett Miller, who was initially set to direct the film, left the project due to clashes with producers. The film remained without a director for quite some time. Producer Atom Entertainment signed filmmaker Christopher Nolan as a creative consultant in early 2012, while director Olivier Nakache and Daniel Robert Epstein were originally set to direct before they left the project in March 2013. In March 2013, Miller was later replaced by Cary Fukunaga, who had long been attached to direct the project. Heartless. This film is from a horror short by Bill Condon that he produced as a student at the University of New Hampshire. It is about a man who goes to a cabin at a remote lake with his girlfriend for the weekend. The cabin has an evil history, "abandoned for 15 years, but hasn't been lived in, so the locals think it's haunted." They notice that there have been more "murders" than at the local hospital, and there are some stories circulating about a man who kidnapped women and other horrors. The girlfriend invites some friends, and invites his ex-girlfriend to be with them. They are drinking alcohol, and having a good time. Then one of the friends jokes about a "real ghost", and someone tries to hit a light fixture with a hammer. Then someone starts sawing on a table leg. And of course, someone falls from the sky at the end.

Earlier this year, it was reported that Netflix's quarterly profits fell by 83 per cent as the streaming giant added 4.8m net new subscribers. This figure is the largest number since the company went public in 1996, and means that the subsidiary is on course to deliver in excess of 10m subscribers this year, up from the 9.21m a year earlier. Watch Movie Better Life, Netflix has at least a 60mb internet connection and up to a 5GB monthly data allowance, depending on the plan one has. Netflix streaming costs about \$8 a month in the US. Netflix used to deliver movies over internet connections. Whether that was streaming videos or downloads. When I looked at the prices that you had to pay for them, I didn't like to pay a lot. So I had only downloaded movies or streamed videos. But then, when they started to provide a package where you can have unlimited streaming for a period of time for a fixed monthly fee, I was pretty happy. Then we realized that we had Netflix streaming. 5ec8ef588b
