Once you open the Eagle PCB design software, you would see its entire interface on a neat desk top. This interface could be organized into several places: Top, left: The entire EAGLE interface. Center: The dialog box. You will get the dialog box after you have used an option on your computer. When you get the dialog box, you can close it by clicking on its cross- button, or, you can click OK or Cancel buttons and close it automatically. On the left of the entire screen, you would see several tabs in one single window: Library, Components, Covers, Components, Boards, and Library. 5ec8ef588b
