Don't hesitate to contact me via email: This is an implementation of the featured OAuth2.0 protocol in your favorite programming language. One of the flaws in the specification is the expiration of the refresh token. In our implementation, it is considered to be limited by the constraint of 3 seconds. This way we can maintain the integrity of the refresh token for 3 seconds even if it is not re-injected into the protocol. This is an implementation of the featured OAuth2.0 protocol in your favorite programming language. One of the flaws in the specification is the expiration of the refresh token. In our implementation, it is considered to be limited by the constraint of 3 seconds
